

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Developed secure applications featuring JWT authentication, REST APIs, role-based authorization, and responsive user interfaces. Skilled in React Router, Axios, Git, GitHub, and API integration, with a strong focus on writing clean, maintainable code. Passionate about solving real-world problems and continuously improving as a full-stack developer.

TECHNICAL SKILLS

Programming Languages: JavaScript

Frontend: React.js, HTML5, CSS, Bootstrap, React Router ,Context API

Backend: Node.js, Express.js, REST APIs ,Authentication & Authorization

Database: MongoDB , Mongoose

Tools & Concepts: Git, GitHub, Postman ,CRUD Operations, Responsive Web Design, Authentication & Authorization

PROJECT

MERN JOB PORTAL

REACT.JS | NODE.JS | EXPRESS.JS | MONGODB | JWT | BOOTSTRAP | AXIOS | REACT ROUTER

- Developed a full-stack Job Portal supporting separate Admin and User roles with secure authentication.
- Built 20+ REST APIs for authentication, job management, and job applications using Express.js and MongoDB.
- Implemented JWT authentication, bcrypt password encryption, and protected routes to secure application access.
- Created responsive user interfaces with React.js and Bootstrap, improving usability across desktop and mobile devices.
- Integrated Axios for API communication and React Router for seamless client-side navigation.
- Managed MongoDB collections using Mongoose to perform CRUD operations efficiently.
- Used Git and GitHub for version control throughout development.

GITHUB: [VIEW REPOSITORY](#)

LIVE DEMO: [VIEW PROJECT](#)

E-COMMERCE WEBSITE

React.js | HTML5 | CSS3 | Bootstrap | Fetch API

- Developed a responsive e-commerce user interface using React.js.
- Fetched and displayed product data from an external API using the Fetch API.
- Implemented product listing, category filtering, and search functionality.
- Built reusable React components and responsive layouts for desktop and mobile devices.

MOVIEHUB – ONLINE MOVIE DVD STORE

React.js | HTML5 | CSS3 | Bootstrap | Movie API

- Developed a responsive online movie DVD store using React.js.
- Integrated an external Movie API to display movie posters and details.
- Implemented shopping cart functionality with Add to Cart and quantity management.
- Built reusable React components and responsive layouts for desktop and mobile devices.

AUTHENTICATION SYSTEM

Node.js | Express.js | MongoDB | JWT | bcrypt

- Built a secure authentication system implementing JWT-based login and password hashing with bcrypt.
- Protected application routes using middleware-based authentication.
- Stored user information securely in MongoDB using Mongoose.

PROFESSIONAL TRAINING

MERN Stack Development

Brassy Academy

2026 – Completed

- Completed hands-on training in MongoDB, Express.js, React.js, and Node.js.
- Built full-stack web applications using the MERN stack.
- Developed REST APIs and integrated frontend with backend services.
- Gained practical experience with Git, GitHub, Postman, JWT authentication, and MongoDB

EDUCATION

Bachelor of Science (B.Sc.) – Chemistry

Sadakathullah Appa College

2022 – 2025
